

SHASHWAT TRIPATHI

Software Developer | Full Stack Engineer

+91-7393969350 | shashwatt49@gmail.com | github.com/Shashwat-Tripathi49 | linkedin.com/in/shashwat-tripathi49

SUMMARY

Detail-oriented Full Stack Developer with hands-on experience designing, building, and deploying responsive web applications. Proficient in JavaScript, React.js, Next.js, Node.js, and relational/non-relational databases. Strong foundation in software engineering principles, API optimization (Redis caching), and Agile workflows. Proven ability to integrate AI agents to automate data workflows and deliver seamless, user-centric products.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL, PHP

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, jQuery

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, Firebase, Redis, REST APIs, React Query, Basic Linux

EXPERIENCE

Full Stack Developer Intern

Apr 2025 – Jun 2025

Skyably Solutions

Remote

- Integrated multiple state-of-the-art AI agents (e.g., OpenAI API, LangChain) to automate complex data extraction and workflows, reducing manual processing time by 40%.
- Optimized RESTful backend APIs and database queries in Node.js, scaling infrastructure to handle live production traffic and improving system response time by 25%.
- Collaborated in an Agile development team to deliver modular full-stack features, utilizing Git version control, branch management, and participating in code reviews to ensure code quality.

Junior Web Developer Intern

Oct 2024 – Nov 2024

ByteNexus

Remote

- Engineered responsive and cross-browser compatible user interfaces using React.js, Tailwind CSS, and HTML5/CSS3, improving mobile user engagement.
- Identified and resolved 30+ UI bugs and performance bottlenecks, optimizing React bundle sizes and rendering performance to achieve smoother transitions.

PROJECTS

SuperG.in – E-commerce Platform | *Next.js, Node.js, Redis, React Query*

Oct 2025

- Engineered a high-performance, full-featured e-commerce platform using Next.js (App Router), Node.js, and React Query for state synchronization.
- Implemented secure authentication, dynamic shopping cart, and checkout workflows; integrated Redis caching to decrease database read load and API latency by 35%.
- Optimized Core Web Vitals, implementing lazy-loading, image optimization, and responsive design, leading to a faster overall page-load speed.

Bhumidekho – Property Listing Platform | *PHP, jQuery, MySQL*

Apr 2025

- Developed a dynamic real-estate property listing platform featuring advanced search, multi-criteria filtering, and pagination using PHP, jQuery, and AJAX.
- Designed and normalized MySQL database schemas with indexing on search parameters, ensuring quick query execution times under 150ms.

MGNREGA ERP – Attendance System | *React, Node.js, MongoDB, Hyperledger Fabric*

Sep 2025

- Architected a decentralized, Proof-of-Concept attendance tracking system for public works using React.js, Node.js, MongoDB, and Hyperledger Fabric.
- Designed and optimized MongoDB database schemas for worker records and attendance logs, executing query performance testing to ensure data consistency and minimal write latency.

NFT Web Platforms | *Next.js, Web3.js, IPFS*

- Developed multiple Next.js interfaces for NFT showcases, integrating Web3 wallets and displaying digital assets stored on decentralized storage (IPFS).

EDUCATION

B.Tech in Computer Science & Information Technology

KIET Group of Institutions (AKTU)

2023 – 2027

Ghaziabad, Uttar Pradesh
